CXO Level Audit Report

Puran Singh Rajput (COO)

Operations, HR, Finance, Retail Sales & MENA Expansion

An independent review of executive communication saturation, manual HR & Finance bottlenecks, retail field force tracking, and MENA CRM oversight managed by the COO, prepared as part of the EF Polymer Private Limited organization-wide operational audit by Creative Upaay (brand owned by Cinnovate Solutions (OPC) Private Limited).

CLIENT	EF Polymer Private Limited
PREPARED BY	Creative Upaay
DOCUMENT VERSION	1.0
DATE ISSUED	18th July 2026
REVIEW SCOPE	COO Office Operations

Brand owned by

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED

CIN : U62099RJ2025OPC100267

SECTION 01 — EXECUTIVE SUMMARY

Department Overview

Scope, current state, and headline findings

The COO Office exercises broad strategic oversight spanning Finance, HR, Marketing, Retail Sales, and MENA business development. While direct execution is delegated, the COO actively dictates annual planning, manually reconciles finance reports, screens 60–80 profiles and conducts 18–20 cultural fit interviews per role, and resolves daily operational friction across fragmented tools.

The audit uncovered severe operational saturation. The COO manages 50–80 daily emails and 150+ WhatsApp groups without a unified dashboard. In HR, critical processes like PMS, L&D, and offer approvals are buried in email and Google Sheets. In Finance, monthly reporting requires manual extraction from Zoho Books rather than real-time dashboard visibility. Retail Sales data is entirely haywired on WhatsApp, and MENA lacks a centralized CRM to track complex trial lifecycles.

18–20 CULTURAL-FIT INTERVIEWS / ROLE	100+ MONTHLY EXPENSE REPORTS	150+ SHARED WA GROUPS	1.5 / 5.0 OVERALL MATURITY SCORE
---	---	---------------------------------	---

About the Maturity Score

A 1–5 scale measuring how systematised, documented, and independently operable the department is. Scored across five dimensions: Process, Technology, Data Quality, Documentation & Knowledge Management.

1 — Ad hoc  5 — Optimised

■ **1.5** Current state ■ **3.2** Post-roadmap target ○ **5.0** Best-in-class benchmark

Brand owned by

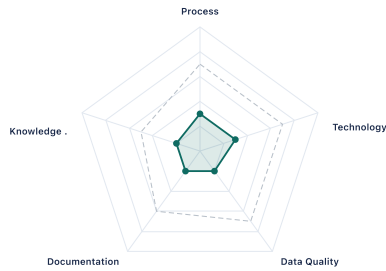

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED

CIN : U62099RJ2025OPC100267

SECTION 02 — BENCHMARKING

Department Maturity Assessment

Scored 1 (ad hoc) to 5 (optimized) against five capability dimensions

Solid line: current state. Dashed line: target state (post-roadmap).

Operations & Finance scores 1.5 overall — Dragged heavily by manual approaches to HR (PMS, L&D) and Finance (report reconciliation, tax calculations). Reliance on scattered WhatsApp groups and email approvals kills executive capacity. A unified CXO dashboard with an integrated knowledge layer is critical.

DIMENSION	CURRENT	TARGET	GAP
Process Standardization	1.5	3.5	2.0
Technology Utilization	1.5	3.5	2.0
Data Quality & Accessibility	1.0	3.5	2.5
Documentation	1.5	3.0	1.5
Knowledge Management	2.0	2.5	0.5
Overall	1.5	3.2	1.7

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED

CIN : U62099RJ2025OPC100267

Team Structure

Reporting hierarchy and direct department leads under Puran Singh Rajput (Co-Founder & COO), reporting to Narayan Lal Gurjar (Founder & CEO).

Tools in Use

WhatsApp

Primary channel for Retail Sales tracking & MENA pipeline (highly unstructured)

Google Sheets & Forms

Manual tracking for HR hiring funnels, PMS, and finance reconciliations

Zoho Suite

Books, Expense, Payroll & People. Uses Zia chatbot for policy (subpar experience)

Email (Gmail)

Used for all approvals (offers, expenses, policy changes). No unified dashboard

Slack

Internal operational communication and team alignment

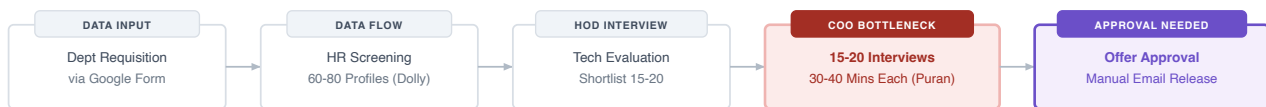

Brand owned by

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED**CIN : U62099RJ2025OPC100267****SECTION 03 — PROCESS DETAIL (PART 1)**

Current Workflows: HR & Finance

Where each finding sits inside the operational process

HR Hiring & Cultural Fit Funnel — P-04

What needs to be fixed: The COO spends massive bandwidth conducting 18-20 cultural fit interviews per role (30-40 mins each) and manually approving offer letters over email. There is no ATS dashboard for pending JDs, interview notes, or offer approvals.

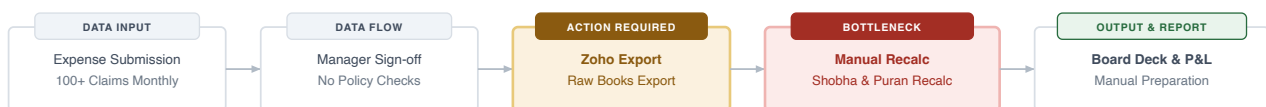

Detailed Workflow Steps:

- 1. Requisition:** Hiring department submits staffing requests via Google Forms.
- 2. HR Screening:** HR Manager (Dolly Mehta) screens 60-80 candidate resumes per position.
- 3. HOD Interview:** Department HODs conduct technical rounds and shortlist 15-20 candidates.
- 4. COO Fit Interview:** COO (Puran Singh Rajput) personally interviews all 15-20 candidates per role.
- 5. Offer Release:** Offer letters are drafted and approved manually via email threads.

Cross-Department Involvement: **HR & Talent** (Dolly Mehta - Resume Screening & Admin), **Hiring HODs** (Technical Evaluation), and **COO Office** (Culture Fit & Offer Approval).

Dependencies & Bottlenecks: Over-involvement of COO in non-executive interviews creates severe hiring lag. HR relies on manual email sign-offs without centralized candidate tracking.

Finance & Expense Reconciliation — P-05

What needs to be fixed: Absence of a real-time finance dashboard forces the team to manually download Zoho reports and recalculate. Expense approvals lack automated policy validation, causing budget over-expenditure.

Detailed Workflow Steps:

- 1. Claim Submission:** Staff across all verticals log 100+ monthly travel and operational claims.
- 2. Manager Sign-off:** Line managers approve claims without automated policy verification against policy limits.
- 3. Data Extraction:** Finance Head (Shobha Shekhawat) exports raw CSV transaction logs from Zoho Books.
- 4. Spreadsheet Reconciliation:** Accounts team and COO manually recalculate tax offsets and category budgets in Excel.
- 5. Board Reporting:** Consolidated figures are manually transcribed into static executive presentations.

Cross-Department Involvement: **All Operating Units** (Claim Submission), **Finance & Accounts** (Shobha Shekhawat - Entry & Audit), and **COO Office** (Expense Governance & P&L Review).

Dependencies & Bottlenecks: Finance depends on manual spreadsheet manipulation, delaying executive financial visibility and risking policy non-compliance.

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED

CIN : U62099RJ2025OPC100267

SECTION 03 — PROCESS DETAIL (PART 2)

Current Workflows: Retail, MENA & Board

Retail Field Tracking via WhatsApp — P-02

What needs to be fixed: Entire retail field force operates on unstructured WhatsApp groups. Travel mileage, farmer contacts, and field demo results are buried in chat logs with zero CRM structure.

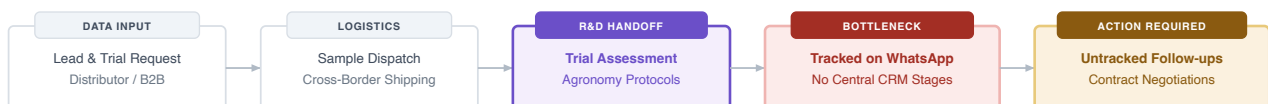

Detailed Workflow Steps:

1. **Field Execution:** Retail Sales Manager (Gaurav Jain) and field reps conduct visits in UP, MP, and Rajasthan.
2. **Chat Logging:** Reps post unformatted visit images, receipts, and text notes into 150+ shared WhatsApp groups.
3. **Management Review:** COO and Sales Lead manually skim chats to verify daily rep activity.
4. **Information Decay:** Critical farmer leads, demo conversion metrics, and field ROI disappear in scroll history.

Cross-Department Involvement: **Retail Sales Force** (Gaurav Jain & Field Reps), **Agronomy & Marketing** (Field Demos), and **COO Office** (Operational Oversight).

Dependencies & Bottlenecks: Management relies on manual chat scanning to track field team productivity. Needs an AI WhatsApp bot parser and field CRM.

MENA Pipeline & Trial Lifecycle — P-06

What needs to be fixed: Complex MENA B2B trials (parent accounts, multi-crop trials in UAE/KSA) are managed entirely on WhatsApp. A partitioned CRM is needed so CXOs can monitor live trial stages and R&D handoffs.

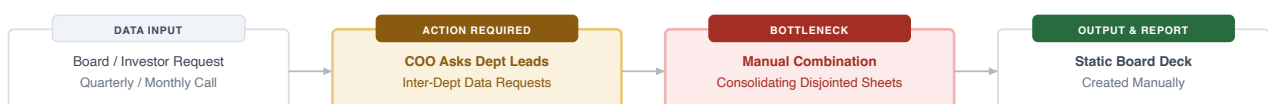

Detailed Workflow Steps:

1. **Lead Intake:** Director – MENA (Neha Pathak) receives international distributor and enterprise trial requests.
2. **Sample Shipping:** Product samples are dispatched from India manufacturing to MENA clients.
3. **R&D Protocol:** R&D team establishes crop-specific agronomy trial protocols and monitoring parameters.
4. **Trial Tracking:** Field performance photos and updates are logged informally on WhatsApp chats.
5. **Commercial Closure:** Contract negotiations lack stage-gated CRM pipeline visibility.

Cross-Department Involvement: **MENA Sales & Agronomy** (Neha Pathak – Client Lead), **R&D** (Ritu Panwar – Agronomy Protocols), **Production & Logistics** (Sample Dispatch), and **COO Office** (Executive Contract Approval).

Dependencies & Bottlenecks: If Neha Pathak is traveling or offline, communication stalls. Requires single CRM with department partitions.

Board/Investor Reporting Prep — P-01

What needs to be fixed: Board prep is a massive manual drain. The COO combines data from multiple sheets to create static decks. Needs a live dashboard reflecting actuals vs. projected sales/expenses, with an LLM agent to auto-generate investor reports.

Detailed Workflow Steps:

- 1. **Reporting Trigger:** Investor reporting cycles or Board meetings prompt data requests.
- 2. **Inter-Dept Data Harvesting:** COO requests operational updates, headcount figures, sales numbers, and finance metrics.
- 3. **Manual Compilation:** COO personally normalizes and combines disjointed Google Sheets and Zoho extracts.
- 4. **Static Deck Assembly:** Manual creation of PowerPoint/Google Slides presentation decks without automated metric feeds.

Cross-Department Involvement: **CEO Office** (Narayan Lal Gurjar – Strategic Alignment), **COO Office** (Puran Singh Rajput – Deck Assembly), **All Department Leads** (Data Submissions), and **Board / Investors**.

Dependencies & Bottlenecks: Consumes days of executive bandwidth prior to every board meeting. Requires automated dashboard and LLM report generator.

SECTION 04 — CROSS-DEPARTMENT DEPENDENCIES

Cross-Department Dependencies

HR & Talent

PMS & L&D INFRASTRUCTURE

OPERATIONS DEPENDENCY

HR must implement a gamified PMS and L&D portal connected to HRMS. The COO cannot track 1-month/3-month evaluations or annual KPIs without a transparent system.

 Key Person: Dolly Mehta (HR Manager)

CRITICAL BOTTLENECK

Without a PMS, appraisal discussions remain opaque. Without L&D, team skill mapping is non-existent. Offer letters and policy changes rely on manual email approvals.

DATA TRANSFER & UPDATES NEEDED

HR must digitize all SOPs into a knowledge layer (replacing subpar Zoho Zia), retire email approval channels, and automate offer letter/NDA e-signing directly into the HRMS.

Finance & Accounts

REAL-TIME REPORTING & EXPENSE GOVERNANCE

OPERATIONS DEPENDENCY

Finance must stop manual reconciliation of Zoho Books exports. Needs to establish live API feeds for sales, expenses, and inventory into a unified CXO dashboard.

 Key Person: Shobha Shekhawat (Finance Head)

CRITICAL BOTTLENECK

Manual tax calculation and lack of policy checks at the expense input level cause over-expenditure and prediction errors for the COO.

DATA TRANSFER & UPDATES NEEDED

Implement an LLM agent to track government tax policy changes and alert finance. Create department-wise budget tracking visible to the CXO in real-time.

Retail Sales & Field Operations

WHATSAPP AI PARSER & FIELD CRM

OPERATIONS DEPENDENCY

Retail sales force must transition from unstructured WhatsApp groups to structured field reporting, capturing travel KM, dealer visits, and farmer feedback.

 Key Person: Gaurav Jain (Retail Sales Manager)

CRITICAL BOTTLENECK

Over 150+ WhatsApp groups store unformatted visit images and text. Lack of templatzation causes ground-level farmer data and field ROI to be lost in chat scroll history.

DATA TRANSFER & UPDATES NEEDED

Deploy an AI WhatsApp Bot parser and mobile field CRM to auto-extract visit metrics, travel expenses, and farmer conversion data directly into the CXO dashboard.

MENA Sales & R&D Integration

TRIAL LIFECYCLE CRM & AGRONOMY LOOP

OPERATIONS DEPENDENCY

MENA B2B trials require seamless handoffs between international business development and R&D for multi-crop testing protocols across UAE and Saudi Arabia.

 **Key Persons:** Neha Pathak (Director – MENA) / Ritu Panwar (R&D Lead)

CRITICAL BOTTLENECK

Complex multi-crop enterprise trials are managed informally via personal WhatsApp/WeChat chats without stage-gated CRM tracking, risking communication blackouts during travel.

DATA TRANSFER & UPDATES NEEDED

Establish a single partitioned CRM for MENA trial stages, linking R&D agronomy protocols, sample dispatch tracking, and client feedback for executive visibility.

Brand owned by

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED**CIN : U62099RJ2025OPC100267****SECTION 05 — OPERATIONAL PAIN POINTS**

Pain Points Register

Ranked by operational impact. Each pain point is cross-referenced to its recommendation.

Priority Focus Areas:

- ① **Real-Time CXO Dashboard & Data Visibility Gap** — Absence of a unified executive CXO dashboard providing real-time P&L visibility, live sales analytics, department-wise expense tracking, and consolidated reporting. The COO is forced to manually harvest data across disconnected Google Sheets and Zoho exports.
- ② **Lack of Centralized HR, PMS & Incentives Dashboard** — No centralized dashboard exists to track Performance Management Systems (PMS 1-month/3-month reviews, annual KPIs), performance-linked incentives, employee onboarding, offer letter e-signings, and HR/Admin operations.
- ③ **Unstructured Retail & MENA Pipeline Chaos** — Critical field sales tracking (travel KM, dealer visits, farmer ROI) and MENA B2B trial lifecycles are trapped in 150+ unstructured WhatsApp groups without CRM stage-gating.

PAIN POINT		IMPACT	EVIDENCE FROM AUDIT
P-01	Real-Time CXO Dashboard & Executive Visibility Gap. Absence of a unified executive CXO dashboard providing real-time P&L visibility, live sales analytics, department budget tracking, and automated investor reporting.	CRITICAL	COO manually consolidates raw Zoho Books exports and Google Sheets; no single source of truth for P&L or sales metrics; investor decks require days of manual prep.
P-02	Lack of Centralized HR, PMS & Incentives Tracking. Absence of a centralized HR dashboard for Performance Management Systems (PMS 1-month/3-month reviews, annual KPIs), performance-linked incentives tracking, automated offer/NDA e-signings, and HR/Admin operations.	CRITICAL	Appraisal discussions remain opaque; incentive tracking is manual; COO conducts 18–20 cultural fit interviews per role; offer letters approved via manual email threads.
P-03	Retail Field Sales WhatsApp Chaos. Entire retail sales force operates on WhatsApp without a field tracking app or CRM, posting unstructured visit images, receipts, and text notes into 150+ chat groups.	CRITICAL	Zero visibility into travel KM, field rep expenses, dealer meetings, farmer conversion data, or field demo ROI; critical ground metrics lost in chat scroll history.
P-04	Finance Reconciliation & Policy Blindspots. Over 100+ monthly expenses lack input-level policy checks. Manual Zoho exports required for monthly financial reconciliation and tax offset calculations.	HIGH	Over-expenditure due to missing automated policy checks; tax calculations are manual without automated government policy change alerts.
P-05	MENA Pipeline & Trial Lifecycle Fragmentation. Complex international B2B trials (multi-crop demos in UAE/KSA, distributor accounts) are managed entirely on personal WhatsApp/WeChat chats without stage-gated CRM pipeline tracking.	HIGH	Inability for CXOs to monitor stage-by-stage trial progress or R&D handoffs; travel by MENA lead causes complete communication blackout.
P-06	Marketing Accountability & Execution Gap. Lack of a dedicated Marketing Manager leads to uncoordinated budget execution (25–50% revenue	MEDIUM	Execution lag post-budget approval; zero structured ROI tracking for regional digital and offline marketing campaigns.

spent on marketing) handled informally as a side-task
by BD staff.

SECTION 07 — CORRECTIVE ACTION PLAN

Recommended Solution Segment

Integrated technology solutions proposed to resolve operational bottlenecks across all COO domains.

Implementation Required

Solution Modules to be Built:

1 Unified CXO Dashboard & AI Assistant

- **Centralized Approvals:** Digitize all HR (offers, policies) and Finance (expenses, budgets) approvals. Real-time visibility into pending/overdue items.
- **Knowledge Layer Chatbot:** Connect all department sheets/dashboards. Replaces subpar Zoho Zia. Answers situational policy/FAQ queries instantly.
- **Email & Board Automation:** AI Chrome extension to segregate inbox, flag red alerts, and suggest replies. Auto-generate investor reports via LLM based on live data.

2 Gamified HR & PMS Ecosystem

- **Performance Management:** Connect KPIs/KRAs to a gamified PMS. Track 1-month/3-month evals and annual performance transparently for appraisals.
- **L&D Portal:** Skill-mapping directory, training requests, and assessment criteria. Team members can find internal skill holders.
- **Automated Onboarding:** Centralized e-signing for offers/NDAs. Auto-create profiles across department platforms to eliminate manual HR work.

3 WhatsApp AI Bot & Retail CRM

- **WA AI Agent:** Parses haywired retail text/images (travel, expenses, farmer data) into templated dashboard data for RSMs and CXOs.
- **Target Tracking:** Field managers can query the bot for individual geography/distributor target progress.
- **Automated Onboarding:** Distributor/RSM onboarding documentation handled via simple WA forms.

4 Finance Automation & MENA CRM

- **Expense Policy Bot:** System check at input level to verify receipts/amounts against policies. Reduces manager verification load.
- **Tax LLM Alert:** AI agent tracks government tax policy changes and alerts finance for reconciliation.
- **Unified CRM:** Single CRM divided by departments. MENA gets trial tracking (R&D handoffs, follow-ups) visible to CXOs.

Key Operational Problems Solved

- Eliminates manual email approvals and board deck preparation through live CXO dashboards and LLM reporting.
- Transforms WhatsApp chaos into structured retail data and target tracking via AI parsing.
- Secures transparent appraisals and skill development through a gamified PMS/L&D ecosystem.
- Stops over-expenditure with input-level policy checks and provides live MENA trial visibility.

SECTION 08 — IMPLEMENTATION PLAN

Phased Roadmap

Initiatives sequenced across three phases, with quantified ROI and scope of work

INITIATIVE		PHASE 1 MO. 1–2	PHASE 2 MO. 3–5	PHASE 3 MO. 6+
Unified CXO Dashboard & AI Assistant	Module 1	●		
Gamified HR & PMS Ecosystem	Module 2		●	
WhatsApp AI Bot & Retail CRM	Module 3		●	
Finance Automation & MENA CRM	Module 4			●

Phase 1 — Executive Relief

Months 1–2 · Medium effort · Immediate Relief

Maturity 1.5 → 2.2

SCOPE OF WORK & DEPENDENCIES

- **Build:** Deploy a Unified CXO Dashboard for approvals (HR offers, Finance expenses) replacing email triage.
- **Build:** Implement AI Knowledge Layer chatbot to answer situational policy/SOP queries, replacing Zoho Zia.
- **Build:** Chrome extension for inbox management, flagging urgent approvals and suggesting replies.
- **Tech Stack & Dependencies:** LLM APIs, Custom Dashboard UI, Zoho/Google Sheet integrations.
- **Client To-Do:** Define approval thresholds and map all current SOPs into the knowledge layer database.

↓ 60%

LOST APPROVALS

Centralized dashboard tracking

1-Click

POLICY QUERIES

Instant answers via AI Knowledge Layer

Phase 2 — HR, PMS & Retail Field Infrastructure

Months 3–5 · High effort

Maturity 2.2 → 2.8

SCOPE OF WORK & DEPENDENCIES

- **Build:** Centralized HR & PMS Dashboard — connect KPIs/KRAs to a gamified PMS. Track 1-month/3-month performance evaluations transparently. Visible to COO in real time for appraisal decisions.
- **Build:** Performance-linked Incentives & Payout Tracker — centralize incentive calculations, approval status, and payout timelines to replace manual spreadsheet reconciliation.
- **Build:** WhatsApp AI Bot for Retail Field Force — parse unstructured RSM updates (travel KM, expenses, farmer data, dealer visits) from 150+ groups into structured CRM dashboards.
- **Build:** L&D Portal — skill-mapping directory, training requests, and assessment criteria. HR Admin Hub for headcount, onboarding pipeline, offer/NDA e-signings.
- **Tech Stack:** WhatsApp Business API AI OCR / Parsing HRMS API Incentive Engine .
- **Client To-Do (Neha Pathak & HR):** Define KPI/KRA frameworks per role. Train retail field force to use WA formats recognized by the AI bot.

Brand owned by

CINNOVATE SOLUTIONS (OPC) PRIVATE LIMITED**CIN : U62099RJ2025OPC100267****SECTION 09 — ROI IMPACT: BEFORE & AFTER**

ROI Impact: Before & After

Measurable improvements post-implementation, mapped to each identified priority

CATEGORY	BEFORE (CURRENT STATE)	AFTER (POST-IMPLEMENTATION)
CXO Real-Time P&L & Sales Dashboard	No unified dashboard. COO manually consolidates Zoho Books exports and Google Sheets; investor decks require days of manual prep. No single source of truth for P&L or sales metrics.	Live CXO Dashboard. Real-time region-wise revenue, department expense burn, actual vs. projected P&L, and sales analytics accessible in one view. LLM auto-generates investor reports.
HR, PMS & Incentives Tracking	PMS non-existent. Appraisals based on memory. Incentive payouts manually calculated via spreadsheets. Offer letters approved through email chains. COO conducts 18–20 interviews per role.	Centralized HR & PMS Dashboard. Gamified KPI/KRA tracking with 1-month/3-month evals. Automated incentive payout calculations. Centralized NDA/offer e-signing. HR Admin Hub for headcount and onboarding.
Communication & Email/WhatsApp Triage	50–80 emails/day triaged manually using “unread” filter. 150+ WhatsApp groups monitored for retail updates, approvals, and MENA coordination.	AI Inbox & WA Bot. AI Chrome extension segregates inbox by priority, flags critical items, and auto-suggests replies. WhatsApp AI Bot parses retail updates automatically — COO receives structured summaries.
Retail Field Sales Tracking	Haywired WhatsApp updates across 150+ groups. Travel KM, dealer visits, expenses, and farmer conversion data lost in chat history.	WhatsApp AI Bot & Field CRM. Unstructured RSM text auto-templated into structured dashboard metrics. RSMs query bot for geography/distributor target progress in real time.
Finance & Board Reporting	Manual Zoho Books exports and reconciliation. 100+ expenses lack input-level policy checks. Tax policy updates missed. Board decks assembled manually.	Finance Automation Engine. Input-level expense policy bots reject over-budget items. LLM generates live board reports. Tax LLM agent proactively alerts finance to government policy changes.
MENA B2B Pipeline & External Vendors	Complex trial cycles managed on personal WhatsApp/WeChat. Vendor onboarding and partnership meetings tracked in personal notes or email threads. No CRM visibility.	Unified Department CRM & Vendor Portal. Stage-gated MENA trial tracking (R&D handoffs, sample dispatch, client follow-ups). Vendor onboarding docs, contract milestones, and partnership logs centralized.
Department Maturity Score	1.5 / 5.0 (Reactive / Ad hoc)	3.2 / 5.0 (Systematised & Automated)

Quantified Executive Time Savings

Estimated annual bandwidth reclaimed for the COO by replacing manual email triage, WhatsApp monitoring, and unstructured approval workflows with automated AI-driven systems.

250+ ACTIONS / MONTH	~5 min AVG MANUAL HANDLE TIME	~21 hrs MONTHLY TIME SAVED	252 hrs ANNUAL HOURS SAVED
--------------------------------	--	--------------------------------------	--------------------------------------

Bandwidth Reinvestment Breakdown:

- **Communication Overhead (25% of day):** COO triages 50–80 emails/day and monitors 150+ WhatsApp groups manually. This is the single largest time drain, consuming ~2 hrs/day of executive bandwidth.
- **Approval Overload:** ~180 of the 250+ monthly actions are formal approvals (offer letters, expense & travel, operational sign-offs), processed at ~5 minutes each via manual email threads and chat confirmations.
- **PMS & Incentives Manual Effort:** Incentive calculations, appraisal note-taking, and onboarding documentation are all manual — consuming 1–2 hrs per cycle with no audit trail.
- **Automated Efficiency:** AI inbox segregation, WhatsApp AI Bot parsing, and the Centralized Approvals Hub reduce average approval review time to under 30 seconds per item.
- **Strategic Impact:** Reclaims **252+ COO hours per year (~31.5 full working days)** to redirect toward operational scaling, supply chain stability, strategic vendor partnerships, and regional expansion.
